NICHOLAS

In his part of the castle he had a stable for horses, a kitchen, a great hall and a living room. The castle was comfortable in the winter. In the castle the people were fun. Christmas lasted twelve days. Every book was made by hand.

On his coat of arms are yellow and red circles and a sword. His father was Marcus. He was a knight. His mother is Greta. He didn't have any sisters and brother. His parents were strict.

He had three wives who have all left him, and 17 children.

John, a strong knight...

His name is John and he was a famous knight because he was very strong. He was born in Scotland. His parents were nobles and they were at the service of King Charles III. At 14 years he was sent to the castle of King Charles III to become a squire. At 17 years, he became a knight. When he wasn't in the castle he took lessons of chivalry with his friends. A couple of years later, he participated in a tournament to become a knight. In the morning he was very stressed but finally, he won the tournament with all knights more than the others. He was married by the king, Charles III and was accepted in the royal army. Then later, he became the head of his army. He was a very strong knight. During the war, he wore a metal helmet and a coat of chain mail. Also, he wore a surcoat and he had his shield and his sword.

Little by little, he conquered a lot of territories. He died somewhere and his body was buried in the castle and his armor at the top and on the left, and a few leaves of trees.

His name was Jeffrey, he lived in a small city in England. He served as King of England. He was red haired, with green eyes. He was very brave and courageous. He was very strong and wise. He was faithful to his king. He liked to laugh because he was still a child in his head. He had his father's shield. Before becoming a knight, he was a page in a castle of the King of England. He was an orphan because his father died in a battle and his mother disappeared. So he was left alone. He had like weapons: a lance, a great sword, a flail and certainly a longbow. With a goose feather. Withings of metal. His armour was composed of a chain of mail, a surcoat and conical helmet. He was not married, but he had one daughter.

COAT OF ARMS

The knight's name was James and he was Scottish. He was born on December 6th 1023 and he died on April 18th 1056. James became knight thanks to King Henry after the ceremony of the accolade. He went doing the war everyday with his armour which composed of surcoat, chainmail, surcoat, surcoat, surcoat, surcoat and surcoat but there wasn't any surcoat and surcoat.

He brought also his sword, lance and vice. He had long brown hair, blue eyes and his coat of chainmail was grey. James had a brown and beautiful horse named Chocolate. My knight was courageous, brave and pious. The values of chivalry were respect and protect women, the poor and king. And defend the church.
